What's a strength of your program or organization?

What do you need the most support with?

Breakout Groups:
Workshopping Potential Challenges and Solutions

- Peer-to-peer **sharing**

- **Encourage** others to share ideas

- Having trouble **starting the conversation**? Have everyone introduce themselves/speak in alphabetical order!

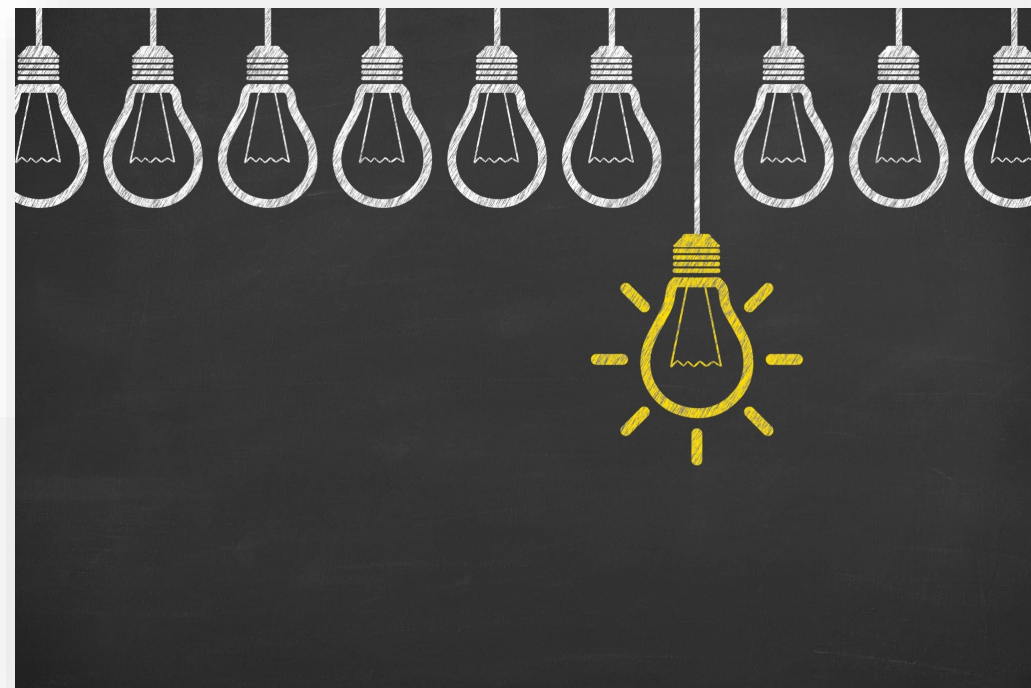

NaRCAD

Roundtable Breakouts
Discussion Prompts:

1. *Introduce yourselves in 60 seconds!*
2. *Each person:*

- **Share 1 strength**
- **Share 1 area where you need support**

If there's time: Offer solutions for areas where your peers need support

NaRCAD

We'll see you in 15 minutes

- The discussion questions will be available to view in your chatbox
- Turn your video on for the breakout session if you're able to
- Request help from the host if you need assistance from the NaRCAD team
- We'll let you know when there are 5 minutes left
- Good luck!

Themes from NaRCAD2022:

- **Vulnerability is key for:**
  - *Relationship building with clinicians*
  - *Exploring and connecting around stigma*
  - *Adapting our communication approaches*
  - *Bringing clinicians together through patient loss or hardships*
- **Fax machines are still our friends!**
- **Inclusivity is <u>part</u> of healthcare, not a separate lens**
- **Pharmacists have a key role in detailing, especially as educators**
- **We can <u>all</u> play a role in creating more opportunities for women in leadership**
- **Be proud of your expertise and know you <u>deserve</u> to be in your role**
- **You can boost morale regardless of the size of your team—either with team members, peers across the NaRCAD Community, or NaRCAD team members themselves**

Creating and Implementing an Academic Detailing (AD) Program

Our Goal
Our goal is to equip organizations looking to implement an academic detailing program(s) aimed to impact providers' opioid prescribing and chronic pain management practices. These resources were developed and supported by the CDC grant no. R01CE003156-01

Inclusivity Toolkit

HEALTHCARE INCLUSIVITY TOOLKIT FOR DETAILERS

Curated tools to explore and address stigma in healthcare settings.

Peer Connection Program

•"I had a situation where a provider argued vehemently with me. I mentioned how I handled it with my peer and asked for her suggestions since she is also a provider. She was **insightful**!"

•"It's great to see the **wide range of detailing topics and approaches to the work**. This program has helped widen my lens and get me thinking creatively."

•"**Two minds are greater than one**, and this is a great way to connect with other detailers to help each other through this journey!"
